Luke Manno

CEO of Farmhouse Fresh

"Being a family run business, we understand the importance of community"

Established in 1994, the Fresh Group has continued to expand and today employs over 100 people across the three divisions of brokerage, wholesale and providore supplies. Farmhouse Fresh specifically focus on the hospitality industry with customers including aged care providers, major public & private hospitals, hotel & restaurants, and commercial caterers.

As a supplier to CCI since 2018, Luke shared that Farmhouse Fresh have built strong relationships and a detailed understanding of the challenges members face in continuing to provide quality meals to the communities they serve: "Being able to play a part in supporting the not for profit community is something we are very proud of."

The support of the not for profit community has in return contributed to the growth of the family business, facilitated reinvestment, hiring more staff and increasing the number of refrigerated vehicles to continuously improve service expectations to members: "We pride ourselves on the quality of our produce & reputation and are proud to support CCI members."
