

Procurement Specialist
Adelaide Metropolitan
Local Government

**“CCI contracts take
advantage of volumes
much better than any other
group contracts I have seen
in the industry so far”**

Located in the metropolitan Adelaide area, this CCI member is a progressive local authority dedicated to its community.

A member since 2012 for the purpose of utilising CCI's food category contracts across their community hubs, this CCI member has moved a range of product and service contracts under a single consolidation umbrella agreement. This has simplified purchasing, reduced their risks and amplified their savings.

In their role, the Procurement Specialist is responsible for delivering sustainable, tangible value for money procurement solutions: "there's a lot of value for money that CCI's group contracts bring to the table and it's great to be uniting together in the not for profit/community sector."
